

# Privacy Policy

This privacy policy sets out how **The Manx Trials Club** uses and protects any information that you give when you join the Club or enter an event.

The Manx Trials Club is committed to ensuring that your privacy is protected. Should we ask you to provide certain information by which you can be identified, then you can be assured that it will only be used in accordance with this privacy statement.

The Manx Trials Club may change this policy from time to time by updating this page. You should check this page from time to time to ensure that you are happy with any changes.

## What we collect

We collect the following information via the membership or event entry form:

- name and date of birth;
- contact information including address, post code, telephone number and email address;
- information relating to your motorcycle including make and model;

## What we do with the information we gather

We require this information to accurately record your membership details/categorise your event entry and we hold this information on one computer managed by the Club Secretary. We take your privacy very seriously. We only retain your data for as long as is necessary.

The following details may be published on the Manx Trials Club website ([www.manxtrialsclub.com](http://www.manxtrialsclub.com)) or in the Event results in the local or motorcycling press

- name;
- information relating to your motorcycle including make and model;

## Security

We are committed to ensuring that your information is secure. In order to prevent unauthorised access or disclosure, we have put in place suitable physical, electronic and managerial procedures to safeguard and secure the information we collect.

## Information that we collect from our website

We anonymise your IP data on our website. This means that we do not track your IP address and you remain anonymous. You will never need to provide personal information to access our website. We use cookies on our website. A cookie is a small file which asks permission to be placed on your computer's hard drive, and allows a website to store a small file of information, analyse web traffic, and respond to you as an individual by monitoring your likes and dislikes.
